Mon-Fri: 9am-4pm
Sat & Sun: 9am-6pm

Harvest Weekends

September 25 & 26 and October 2 & 3, 2010

It's harvest time at the Wells Fargo Family Farm! Stop in and explore our kid's corn maze, and more. These weekends will include children's crafts, musical entertainment, butter churning demonstrations and other animal hands-on opportunities. Be sure to check out the animal-themed scarecrows that will be on display through October as we continue to celebrate "The Year of the Farm".

Animal Fun Fact: RED RIVER HOG

- Red river hogs fluff out their face hair when threatened-making them look larger and more threatening to the enemy.
- Red river hogs are prey items for leopards, lions, spotted hyenas, pythons, and people.
- Exceptional hearing and eyesight help red river hogs locate worms and other meals.
- Red river hog piglets weigh about 1.5 pounds – as much as a big loaf of bread!
- The red river hog can be seen at *Faces of the African Forest*-the newest exhibit on the Tropics Trail at the Minnesota Zoo

CHANGES AT THE ZOO!

The Zoo is marching forward with several construction projects, including the Target® Learning Center, Cargill Environmental Education Center and *Penguins of the African Coast* exhibit, all scheduled to open in Summer 2011. On your next visit to the Zoo, be sure to check on the progress. We will also be posting construction updates on our website.

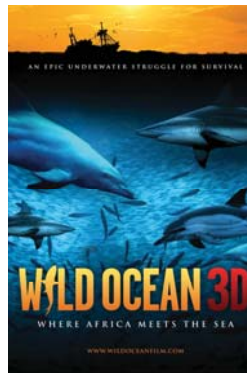

Good ANY Day Tickets

Your company may already participate in the Zoo Discount Card program, but Zoo discount tickets are an even greater savings! Consider purchasing 20 or more tickets to distribute through your company store or a certain department. Ticket holders can use the tickets any day of the year! Call 952.431.9200 to speak with a representative for further information or to order your tickets.

Great Clips IMAX Theatre

Opening September 3...

Each year an unbelievable feeding frenzy takes place in the oceans of South Africa as billions of sardines migrate up the KwaZulu-Natal Coast. Wild Ocean captures spectacular breaching whales, feeding sharks, diving gannets, and massive bait balls inside and up close on the giant screen. The migration has provided an annual food source for both life in the sea and the people living along the African shores for countless generations.
